

# Grantees' Profile

## Reynante Abadiez

BS Accountancy | University of San Carlos

I don't regret being financially-challenged for it made me experience and learn from real life problems at a young age. We started in the lowest level of society but its not a reason for me to stop working and living. This is how life is; nothing's served on a silver platter.

## Alejandro Aquino Jr.

BS Electrical Engineering | Cebu Institute of Technology

Each one of us is given a chance to enjoy life, to express it, to share with it and to love the life that was given to us.

## Retsat Welltien Asupre

BS Management Accounting | University of San Carlos

I embrace everything that comes to me and welcome each of them whether good or bad. Things are not always good but it's up to you how you perceive it and how you deal with it. It's not about making the right choices but acting within the demands of our choices.

## Jingle Bacus

BS Psychology | University of San Carlos

Now I see the world from a wide prospective: People who work harder will achieve greater heights; those who stop working lose the essence of life. I will continue work hard; continue to get inspiration from the people around me; and hopefully, continue to achieve more in life.

## Erly Bantilan

BS Education | Cebu Normal University

"Its better to try and fail, than to fail without trying." Since I met this quote in my secondary days, I made it as my inspiration that everytime I feel upset or down I just think about it and it gives me courage to go on.
